

CIAG X HADRIAN

Propelling precision aerospace
innovation across the globe!

ACCELERATING GROWTH

Our Understanding: Hadrian's goal is to establish 10-20 mega factories across core manufacturing spaces in the US

\$3 million revenue in 2023

projected 10x increase by end of 2024

Scaling production while maintaining quality standards

Regulatory hurdles in aerospace/defense sectors across different markets

OUR MODEL

Your business needs are our top priority.

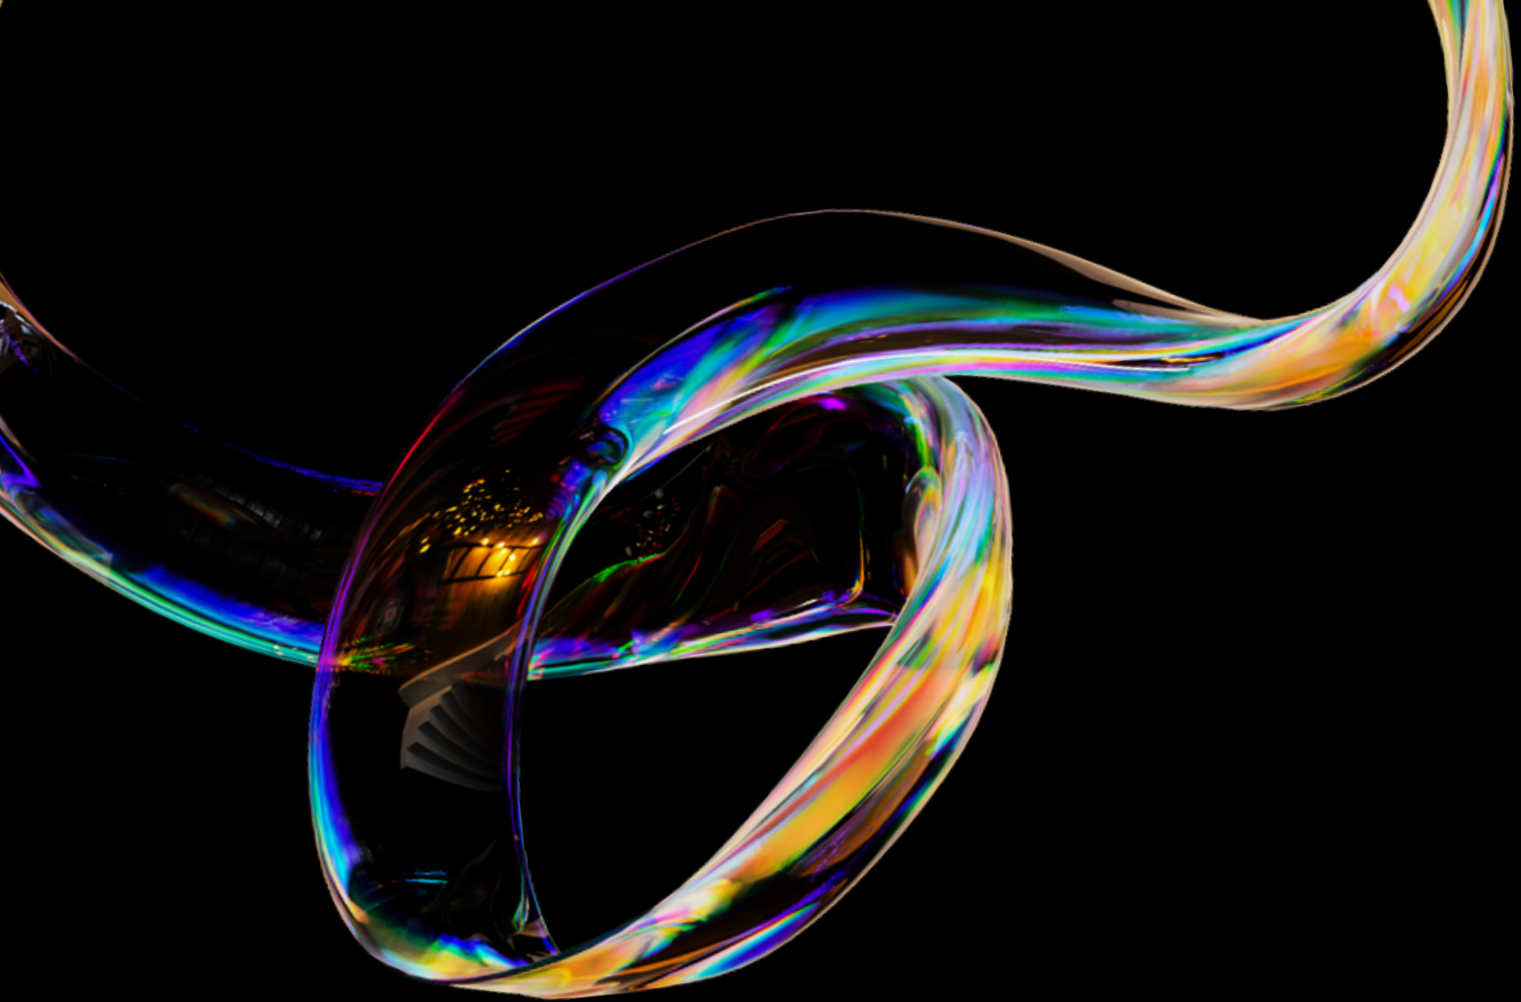

Business Management

Corporate Strategy

**Comprehensive
Compliance**

**Product, Sales and
Marketing**

Every CIAG team member holds an advanced degree in their field along with high-level expertise at S&P 500 companies.

CIAG'S RELEVANT EXPERIENCE

Global Trade and Regulatory Compliance

Julia Johnson's experience with the World Bank and U.S. Trade Representative offers crucial insights for navigating international aerospace regulations and trade policies.

Tech-Driven Manufacturing Scaling

Jose Rivera's corporate strategy background in FinTech can be applied to optimize Hadrian's rapid scaling plans.

Legal Risk Mitigation

Daniel Delnero's experience in high-stakes litigation and regulatory risk management across multiple countries can help Hadrian navigate complex legal landscapes.

Workforce Development

Zack Oppenheim's background in education can support Hadrian's need for specialized training programs in advanced manufacturing.

WHAT WE OFFER

Regulatory Complex

Reduce time-to-market in new regions by leveraging CIAG's regulatory knowledge

Brand Messaging Guidelines

Optimize expansion strategy to align with Hadrian's ambitious growth targets

Connections

Access to CIAG's network of aerospace and defense industry partners

Agile Marketing Approach

Customized workforce development strategies to support Hadrian's automation-focused approach
